

FEATURED PROJECT FLEMING COMPLETES ANOTHER MILL CREEK COMPANIES PROJECT, BRINGING THE TOTAL TO 300K SQ. FT. IN UPDATES FOR THE RETAILER

PROJECT SUMMARY

Business: Mill Creek Companies

Location: Grove, OK

Category: Retail Showroom and Warehouse Space

Construction Type: Reroof, Including Partial Interior

Square Feet: 12k

For the last five years, Mill Creek Companies has relied on Fleming Steel Erectors for their roof maintenance and upgrades. When it came time to reroof the 12k square foot Grove, Oklahoma retail and warehouse location, CEO Jeff Dunn knew FSE would be able to carry out the work without major interruptions to their showroom.

Fleming Steel Erectors replaced the outdated R-Panel metal roof with the latest Butler MR-24[®] Standing Seam Roofing System. FSE also made improvements to the interior aesthetics of the popular flooring and design showroom. This project marks the 8th reroof for a Mill Creek facility, totaling nearly 300k square feet of improvements that Fleming has completed for the company.

PROJECT SCOPE

- Butler MR-24[®] Standing Seam Roofing System
- Improved Interior Aesthetics

RESULTS

- No Interruptions to Popular Retail Showroom
- Completed During Historic Winter Conditions with Zero Safety Incidents
- On-Time Completion Despite Materials Shortages and Covid-19 Complications
- Eligible for Qualified Energy Efficiency Rebates and Tax Incentives

"Allen and the team at Fleming continue to care for our roof assets as if they were their own. We truly appreciate the relationship and service they provide Mill Creek." - Jeff Dunn - CEO Mill Creek Companies
