STEEL ERECTORS

FEATURED PROJECT – VANGUARD REEFER TRAILER PLANT

World Class Steel Crews Available for Immediate, Nationwide Deployment

FEATURED PROJECT

FSE COMPLETES STEEL ERECTION OF REEFER TRAILER PLANT ON SCHEDULE IN SPITE OF COVID-19 PANDEMIC AND HEAVY RAINS

In collaboration with JM Williams Contractors, in spring of 2020, Fleming Steel Erectors began assembly on a 255K square foot reefer trailer manufacturing plant in Monon, Indiana on behalf of the Vanguard National Trailer Corporation. The job began in March, 2020, right at the outset of the Covid-19 pandemic and months of heavy spring rains. The FSE crew worked through these concurrent challenges to get the job done on stated timelines, safely, and with no incidents.

The plant design included a 32' eave requiring 8 bridge cranes to complete assembly. FSE mitigated 50% of the high-risk elevated work by assembling the modules on the ground, which proved to be both faster and safer. After the modules were assembled, two cranes lifted them into position.

OVERVIEW

In collaboration with JM Williams Contractors, in spring of 2020, Fleming Steel Erectors began assembly on a 255K square foot reefer trailer manufacturing plant in Monon, Indiana on behalf of the Vanguard National Trailer Corporation.

BUSINESS: Vanguard National Trailer Corporation

CATEGORY: Manufacturing Plant

LOCATION: Monon, IN

SQUARE FEET: 255K

PARTNER(S): JM Williams Contractors

Featured Project: Vanguard Reefer Trailer

PROJECT SCOPE

- 32' Eaves
- 8 Bridge Cranes
- Pre-Assembled 28 Roof Modules On Ground
- Butler MR-24 with R30 Insulation

Featured Project: Vanguard Reefer Trailer

RESULTS

- All Primary Frames, Secondaries, Crane Steel + Roof and Wall Paneling in 26 Weeks
- Completed on Deadline Despite Heavy Rains and Global Pandemic
- Zero Safety Incidents

Featured Project: Vanguard Reefer Trailer

FEATURED PROJECT

FSE COMPLETES STEEL ERECTION OF REEFER TRAILER PLANT ON SCHEDULE IN SPITE OF COVID-19 PANDEMIC AND HEAVY RAINS

"The Vanguard Trailer plant is a great example of how well FSE works under pressure and extenuating circumstances. The dual unexpected challenges of the Covid-19 pandemic and heavy spring rains tested our crews' ability to stay focused and stay safe, but they rose to the occasion and passed the test with flying colors. We are proud of this project because it demonstrates our capacity for teamwork and success despite unexpected adversities."

-Tim Sprouse, VP Operations for FSE
